**Data source and methods**

**Incidence**

- **Country-specific data source**: National
- **Method**: Most recent rates from a single registry applied to 2020 population

**Mortality**

- **Country-specific data source**: National (WHO)
- **Method**: Estimated from national incidence estimates by modeling, using incidence:mortality ratios derived from cancer registry data in neighbouring countries

**Prevalence**

Computed using sex-, site- and age-specific incidence to 1-,3- and 5-year prevalence ratios from Nordic countries for the period (2006-2015), and scaled using Human Development Index (HDI) ratios.
