Data source and methods

Incidence

Country-specific data source: National Cancer Registry of Honduras (Francisco Morazán)

Method: Most recent rates from a single registry applied to 2018 population

Mortality

Country-specific data source: National (WHO)

Method: Most recent rates from one source applied to 2018 population

Prevalence

Computed using sex-, site- and age-specific incidence to 1-,3- and 5-year prevalence ratios from Nordic countries for the period (2000-2009), and scaled using Human Development Index (HDI) ratios.
