Data source and methods

**Incidence**
- **Country-specific data source**: No data
- **Method**: Estimated from national mortality estimates by modeling, using mortality:incidence ratios derived from cancer registry data in neighbouring countries

**Mortality**
- **Country-specific data source**: National (WHO)
- **Method**: National rates projected to 2020

**Prevalence**
- Computed using sex-, site- and age-specific incidence to 1-,3- and 5-year prevalence ratios from Nordic countries for the period (2006-2015), and scaled using Human Development Index (HDI) ratios.
