**Data source and methods**

**Incidence**
- **Country-specific data source**: Cebu Cancer Registry, Manila Cancer Registry, Rizal Cancer Registry
- **Method**: Weighted/simple average of the most recent local rates applied to 2020 population

**Mortality**
- **Country-specific data source**: National (WHO)
- **Method**: Estimated from national incidence estimates by modelling, using incidence:mortality ratios derived from cancer registry data in neighbouring countries

**Prevalence**
- **Computed using sex-, site- and age-specific incidence to 1-, 3- and 5-year prevalence ratios from Nordic countries for the period (2006-2015), and scaled using Human Development Index (HDI) ratios.**
