## Data source and methods

### Incidence

**Country-specific data source:** Qatar National Cancer Registry

**Method:** Most recent rates from a single registry applied to 2020 population

### Mortality

**Country-specific data source:** National (WHO)

**Method:** Estimated from national incidence estimates by modelling, using incidence:mortality ratios derived from cancer registry data in neighbouring countries

### Prevalence

Computed using sex-, site- and age-specific incidence to 1-,3- and 5-year prevalence ratios from Nordic countries for the period (2006-2015), and scaled using Human Development Index (HDI) ratios.
