Data source and methods

**Incidence**

- **Country-specific data source**: National
- **Method**: National (or local with coverage greater than 50%) rates projected to 2020

**Mortality**

- **Country-specific data source**: National (WHO)
- **Method**: Estimated from national incidence estimates by modelling, using incidence:mortality ratios derived from cancer registry data in neighbouring countries

**Prevalence**

Computed using sex-, site- and age-specific incidence to 1-, 3- and 5-year prevalence ratios from Nordic countries for the period (2006-2015), and scaled using Human Development Index (HDI) ratios.
